

REMARKS / ARGUMENTS

This response is filed concurrently with a Request for Continued Examination. Claims 26-30 are pending in the present application. Claims 27-28 have been amended to provide adequate antecedent basis for features pertaining to the electronic reader. Such amendments are not made in view of the prior art. Claims 1-25 have been canceled without prejudice to pursuing their recited subject matter in a subsequently filed application.

Since this Office Action has indicated that Claims 26-30 are allowable, and such claims are the sole claims pending, a Notice of Allowability is respectfully solicited.

Respectfully submitted,

Dated: December 13, 2006
